In submitting this report, we wish to state that certain re-adjustments must of necessity be made in the balance sheet before the close of another fiscal year, one of which is the matter of taxes bought by the Town, so that the same may fairly reflect the Town's assets.

Except for such adjustments to be made in such balance sheet we believe the report to be correct, and the receipts and expenditures are supported by proper vouchers and have been duly audited.

REPORT OF THE LIBRARIAN

OF THE SMYTH PUBLIC LIBRARY, TOGETHER WITH THAT
OF THE TREASURER OF THE ASSOCIATION FOR 1933

The year just passed has witnessed an extraordinary increase in the circulation of books and periodicals from our library, far exceeding that of any previous year since it was established in 1888. Nearly ten thousand books and 1584 periodicals have been taken out during the year by the reading public of this town with its population of some 800. In this connection it is gratifying to note that of the large number of books taken out only a few have been lost or destroyed.

It may be of interest to know that our revenue for the purchase of books comes solely from the interest on certain funds invested in the savings banks in Manchester. These funds amount to a little less than five thousand dollars. Within the past year the banks have made a drastic cut in their dividend rate, and this cut, together with the fact that books are still high in price and may go higher, will oblige us to greatly curtail our purchase of books and periodicals for the coming year. In order to maintain a checking account in the banks we are now obliged to keep on deposit a sum of not less than two hundred dollars, the interest on which is lost to us.

If it is the wish of the town that the library may still contrive to maintain its strong appeal to the reading public an appropriation will be necessary to make good this serious loss of revenue.

We have succeeded in getting together all of our printed town reports since and including 1871, and have had them bound in three volumes, thus making them available to any one who might wish to consult them.

In offering an excuse for the large proportion of works of fiction purchased during the year, it is only necessary to

say that more than 75 per cent of all books taken out were of this class.

In conclusion we wish to thank all those who have given us books the past year. As far as it was possible these gifts were acknowledged by letter.

GEORGE F. CASS,

Librarian.
